North-West College Prepares to Open New Campus in Bakersfield, California

New Location Underscores College's Continued Commitment to Educating Students for Success

BAKERSFIELD, Calif.—As part of its continued commitment to providing quality education programs throughout California, North-West College (NWC) recently announced plans to build a new campus in Bakersfield, California. Slated for completion later this year, the new Campus will bring the health care training programs NWC is so well known for to the residents of Kern County.

“For more than 50 years, we have changed students’ lives through our quality short-term and professional programs,” explained Chief Operating Officer Baylor Meza, “and we are excited to continue to do that for the Bakersfield community.”

North-West College’s Bakersfield Campus will launch with an Associate of Arts in Nursing (RN) Program, with a Bachelor of Science in Nursing Program planned to follow in the future. In addition, the College will soon expand its list of program offerings at the new campus with short-term training in allied health programs, including Medical Assistant, Pharmacy Technician, Medical Insurance Billing, and more.

A hallmark of North-West College, each program engages students with a blend of in-class instruction and hands-on training. This combination allows students to cement their newfound skills and knowledge so they can hit the ground running in the health care field when they graduate.

"Our goal is to create a dynamic and supportive learning environment for our students, equipping them with the skills they need to thrive in their field," Meza shared. "We can't wait to see how our Bakersfield graduates will go on to change others' lives by providing excellent patient care in the clinics, offices, and hospitals where they will work in the future."

For more information about North-West College Bakersfield, or any of the College’s campuses and programs, please contact Nancy Aguillon at NancyA@success.edu.

About North-West College

Founded in 1966, North-West College has been committed to training individuals to enter and advance in the health care field for more than 50 years. A leader in allied health education, the College offers short-term programs at several campuses throughout Southern California, including West Covina, Pomona Valley, Van Nuys, Glendale, Riverside, Anaheim, Long Beach and Bakersfield. To date, the College has graduated more than 55,000 students—individuals who have gone on to raise the standard of excellence at health care organizations of all types.
